

SUPA 20

Premium Textured 20% Protein Calf Starter

This is the ultimate start your calf needs – a quality 20% protein meal with added fibre. With our qualified nutritionist, we have created a recipe to create a meal that develops the rumen, gives you the ability to restrict milk/milk replacer, contains Bovatec® to prevent coccidiosis, and most importantly, achieves great weight gains. Blended with molasses, we bring you a highly palatable meal that your calves will be mad on.

FEEDING RECCOMENDATIONS:

Feed ad-lib, offering fresh product daily. Feed 100gms of meal per 10kg of body weight to ensure recommended intake of Bovatec®. Increase to double if severe coccidial challenge is expected.

Always ensure fresh clean water is available.

Suitable for calves and goat kids.

Supa 20 can be offered from day 1, only a handful will be necessary in the beginning.

CAUTION: Contains 120mg/kg of Bovatec®. Do not feed or allow access of feed to Bobby Calves, Dogs, Horses (or other equids) or Alpacas (or other camelids). The consumption of this feed by the above may be fatal. Withholding Period > Meat: Nil.

SIMPLY THE BEST

TYPICAL ANALYSIS:

ME	14MJ/kg
PROTEIN	20.0%
FAT MIN	4.0%
FIBRE MIN	3.0%
CALCIUM	0.6%
